The Women's Welfare Advisory Committee, in association with the Internal Quality Assurance Cell (IQAC), successfully conducted a seminar on Workplace Readiness & Labor Rights to equip students with essential knowledge before they step into the professional world through internships, jobs, or freelancing.

The seminar was conducted by **Ms. Vasudha Khanna**, Lead Legal Consultant at the National Health Systems Resource Centre, Div. ED Secretariat, Ministry of Health and Family Welfare, Delhi. She provided valuable insights into workplace essentials and labour laws, emphasizing the importance of understanding one's rights and responsibilities in any professional setting.

The session witnessed enthusiastic participation from students, both boys and girls, who registered in advance. The seminar served as an eye-opener on issues like workplace harassment, employment terms, and legal remedies available to workers and interns.

This informative initiative by WWAC reflects the committee's continuous efforts toward student empowerment, legal awareness, and ensuring a safe and informed transition from college to the workforce.
